

SUMMARY

FULL STACK DEVELOPER| FRONT-END DEVELOPER| COMPUTER PROGRAMMER

- Solid in design and incorporation with natural critical thinking aptitudes with hands-on experience of **3 years**.
- Expert in responsive Design using the **Bootstrap, CSS/CSS3, HTML/HTML5**, and Use of **Advance Js** for the client side.
- Experience in using **Redux** to manage the application state and applying middleware such as **reduxpromise, redux-thunk** and **redux-saga**.
- Experience in all phases of Software Development Life Cycle (**SDLC**) including Analysis, Design, Development, Documentation, Testing, Deployment, Version Control and production support.
- Good knowledge of working with diff type of database management system for retrieving the data from database using **Web Api/Web Services** into the format of **json**.
- Critical thinking and research abilities in view of the theme. Quick learner, adaptable ready to learn new technologies.
- Highly Curious about new **front-end development** technologies and thoroughly mastering them with a keen awareness of new industry developments and the evolution of programming solutions.
- Organized, reliable, detail-oriented, and patient with a positive attitude and highly energetic.
- Always ready to take the initiative of problem resolution, work well in a team-oriented environment as well as independently.
- Energetic about executing and propelling new ventures. Capacity to make an interpretation of business prerequisites into specialized arrangements.
- Strong support professional with a bachelor's degree in Computer Engineering and College Diploma from Georgian College.

TECHNICAL SKILLS

Programming : Reactjs, Redux, C#, JavaScript, XML, HTML, CSS, Bootstrap, jQuery

Operating Systems : Windows, Linux, macOS

Databases : MySQL, mongo DB

Other : GIT, Object-Oriented Principals and design patterns, Model-View-Controller (MVC), Software Development Life Cycle, MS Office Suite

EDUCATION

College Diploma - Computer Programmer
Georgian college - Barrie, ON, Canada

August 2019

Bachelor of Engineering - Computer Engineering
Gujrat Technological University – India

May 2016

WORK EXPERIENCE

Computer Programmer
meshMD Inc.

August 2020 - Present

- Developed the dynamic component in **ReactJs** to fulfill the functionality of application, which include the fetching and modifying data in database using **C#** API communicate with service by consuming **Restful API**, that is reusable for many pages.
- Developed the Front-End and User Interface of ARTWorks applications using **Javascript, ES6, React, and Redux**.
- Working experience on **CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, CSS Table, Pseudo Classes, Pseudo Elements and CSS Behaviours** in CSS.
- Develop and Design the Responsive Web application with dynamic pages using **html/html5, SCSS and bootstrap, ReactJs and JavaScript** to facilitate the digital transformation of the details of products and services provided by company.
- Applied redux middleware using **redux-promise, redux-thunk and redux-saga**.
- Used various bootstrap components like **accordion, date picker, time picker, alert, buttons, modal** and also **react-bootstrap** components.
- Managed state within the app using **Redux** and persisted certain parts of the state to device via **Redux Persist**.
- Responding and fixing **issues and bugs** that arise.
- Creating / Modifying applications as result of a Change Requests or Project Briefs.
- Coordinating with all other teams internal to the company including **Project, Usability, Design and Quality Assurance**.

Software Developer
Kalp Corporate

September 2016 - Aug 2017

- Designed and developed various Web forms using **HTML5, CSS3, Bootstrap, JQuery, EmberJs, AngularJs and JavaScript**. Experience in using **SQL** for storing and fetching data in the database.
- Developed various screens for the front end using **EmberJs and AngularJs** with the use of various predefined components from **API** using **NodeJs and NPM**.
- Involved in writing application-level code to interact with **APIs, Web Services** using **AJAX, JSON**.
- MVC framework for the back-end while the front-ends were built using the **BootStrap Framework** and **HTML** along with **jQuery**.
- Participated in requirement gathering and analysis also helped all individuals from the relegated office with everyday tasks and uncommon ventures.
- Communicate with area **specialists, clients, and executives** all through the **product advancement lifecycle**.

ACHIEVEMENTS

- Secured college Dean's list throughout all semesters of the Georgian college.
